

Parking Services Division: **Proposed Parking Code Changes**

Administrative

1. Create new division for Parking Services (219.01, 219.031, 219.033, 2150.04)
 - Supports organizational changes to deliver services more efficiently & effectively
2. Align current policies with code & reflect State regulations (2150.01, 2150.02, 2150.10, 2151.21)
 - Reflect state regulations regarding vehicle impoundment
 - Align current policy on enforcement of failure to display front license plate
 - Strengthen & align handicap accessible parking enforcement

City-Wide Parking Management Tools

1. Encourage parking turnover to increase citizen access (2105.16, 2151.09, 2151.26, 2155.05)
 - Clarify parking violation for parking in more than one space (individual parking spaces)
 - Define moving a vehicle to discourage long-term storage of vehicles in the right of way
 - Allow for enforcement of non-metered time limited parking areas (i.e. 2 hr. parking)
2. Proactively manage parking in high demand areas (2105.21, 2151.18)
 - Allow for multi-dimensional permit programs to support access in mixed-use areas
3. Create Mobile Payment Zones, enhance meters with mobile payment (2155.01, .04)
 - Revise definition of “parking meter” to include forward thinking technology options

City-Wide Mobility Tools

1. Develop parking demand management tools, increase mobility options (2101.58, 2105.27, 2151.25)
 - Allow for the operation of round-trip, dedicated space car sharing
2. Reinvest a portion of meter revenue to District Parking & Mobility Solutions (2155.13)
 - Create a parking benefit district to reinvest meter revenues back to district
